

MONTENEGRO

MINISTRY OF SUSTAINABLE DEVELOPMENT
AND TOURISM

No: 101-580/56

Podgorica, 6th November 2017

Dear Sir/Madam,

We would like to inform you that the National Waste Management Plan in Montenegro for the period 2015-2020 envisages three options for waste management one of which provides for the use of energy recovered from waste. We would like to inform you hereby that for the municipality Niksic there is an idea to solve the issue of waste management by constructing a plant for thermal treatment of waste in the territory of this municipality.

In view of the aforesaid, we are inviting you, if you are interested, to give a presentation, in the premises of the Ministry of Sustainable Development and Tourism on 27th-28th November, about your technology of waste treatment which could solve to a considerable extent, with due consideration to economic and environmental and other aspects, the problems in the field of waste management for four Montenegrin municipalities: Niksic, Pluzine, Savnik and Zabljak. The duration of the presentation would be limited to 30 minutes and additional 30 minutes for discussion.

Furthermore, we are sending enclosed hereto data from the National Waste Management Plan relating to the quantity and composition of municipal waste for the municipalities: Niksic, Pluzine, Savnik and Zabljak.

Please confirm your participation **by 23rd November at the latest** to e-mail address of Mr Dragan Asanovic, the Director General for waste management and communal development, dragan.asanovic@mrt.gov.me, so that we could inform you timely of the date and time of your presentation.

Sincerely yours,

STATE SECRETARY
Sasa Radulovic

MINISTER
Payle Radulovic
